

## **KU Medical Center Internal Medicine 2022 Research Day**

**Wednesday, November 16th, 2022**

**Plenary Session in School of Nursing (SON) Auditorium G013 and  
Poster Sessions in Ad Astra Room—Health Education Building  
(HEB) 5202**

We are excited to announce the Department of Internal Medicine's 3rd annual Research Day! Internal Medicine Research Day is an opportunity to learn about current findings and research developments within the Department of Internal Medicine.

The event will be held from 9 a.m. to 6 p.m. on November 16th, 2022, and will feature a plenary address, boxed lunches provided by The Russell, a morning and afternoon poster session, and an awards reception with open bar and appetizers from Brancato's.

Dr. Heidi Crane

Research Day will be highlighted by a plenary address from Heidi Crane, MD, MPH, Professor of Medicine in the Division of Allergy and Infectious Diseases at the University of Washington (UW).

Dr. Crane is the Associate Director of the UW Centers for AIDS Research (CFAR) Clinical Epidemiology and Health Services Research (CE&HSR) Core, which promotes research comparing the effectiveness of management strategies for HIV-infected patients in routine clinical practice. She is also Medical Director of the Madison HIV Metabolic clinic.

**Scan to RSVP!**

The plenary address will serve as the Internal Medicine Grand Rounds presentation for the week and will be available [virtually via Zoom](#) for those who cannot attend in-person.

For more information, please visit the [KUMC Internal Medicine Research Office website](#).

**Made possible by the KU School of Medicine Bohan Visiting Professor Program**
